### **DETAILED ACTION**

1. Claims 4-11 are pending. Applicant cancelled claims 1-3 and 12-15.
2. Applicant's proposed Amendment to the Specification is noted. Applicant is requested to send in a substitute Specification with the changes noted. The changes will then be entered.
3. The proposed drawing corrections received November 17, 2003 are acceptable.
4. Applicant's response to the information request is noted from page 16 of the Response. Thus, it is the Examiner's position that Applicant has no information to disclose regarding the present Application.
5. Claims 4-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wynn et al., US 5,717,867.

Wynn discloses a computer system for a time keeping and expense entry system for tracking employee work time transfer of data contained in a database comprising, a graphical user interface (GUI) and a wireless protocol medium.

Webster does not appear to explicitly describe generating a text message over the Internet. However, to support a subsequent generation of time keeping and expense report text messages over the computer system of Wynn would have been obvious to one of ordinary skill in the art. Doing such would incorporate well known document storage and retrieval means with a time keeping system. To have provided the data transfer to comprise a short message service, page or e-mail for the computer system of Wynn, as modified by Skinner, would have been obvious to one of ordinary skill in the art. Doing such would substitute well known data transfer means for the Wynn system.

6. Further pertinent references of interest are noted on the attached PTO-892.

### *Conclusion*

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3627

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
